

## **Easter Watch Party Script**

### **Thanks for hosting a Facebook Watch Party!**

Facebook Watch Parties are a great way to take watching Mosaic Church online to the next level. Our goal is to help you reach more people with the message of Jesus this Easter. We want you to feel fully equipped to host an online Mosaic Church service, so we've put together this document so you can copy and paste as you need. Make sure you read this entire document so you're ready for anything!

### **When someone joins your watch party –**

The idea here is to be welcoming and friendly. Using someone's name can go a long way when they join. Here are some examples of how you could engage new viewers:

*"Hi, [insert name here], I'm so glad you're watching! Welcome to Mosaic Church."  
"Hey, [insert name here], thanks for spending part of your Easter weekend with us!"*

### **If you have someone new to Mosaic Church join your watch party –**

This is huge! Even though we're watching church online, we want to be strategic in making sure no one walks alone. You can say the following to connect them to our church:

*"I'm so glad you joined me for church today! If you've never been to our church, check out [www.mosaicgc.com](http://www.mosaicgc.com) to see what we're all about. While you're there, you can fill out our online connect card and we'll send you some information with more information about the church and our ministries."*

### **You've got a watch party going and service is starting –**

During the service, you've got the unique opportunity to comment on the music and teaching in real-time. Share your thoughts and ask your group to do the same. Invite them into the conversation! Say things like:

*"I love this song! What are the lyrics saying to you right now?"  
"I feel the same way sometimes! What do you guys think?"  
"What are your thoughts about what he just said?"*

### **It's time for the giving portion of the service –**

At this point, we want to give everyone the opportunity to worship through giving. Here's how you could lead your party through this portion of the service:

*"At Mosaic Church, we are doing all that we can to help people navigate this season. Here's the link to give online."*

Share this link: <https://www.mosaicgc.com/give/>

*"I just completed my giving! Let me know if I can help you with yours."  
"Now is a great time to set up recurring giving if you haven't already."*

### **Spiritual support –**

Our goal is to meet people online in a one-on-one setting to be able to pray with them, encourage them, and connect them to God and community. When needed, please take the opportunity to pray with people or help them with the teaching. You could say things like:

*"If you would like to talk or have someone pray with you, let me know. I'd love to chat with you privately."  
"If you have questions about the message, about God, Jesus, or something being discussed – let me know! I'd love to chat with you about it."*

### **The service is ending –**

This time is important because it leads people in your watch party to taking a next step. Say things like:

*"If you would like prayer, or are interested in making a decision to follow Christ you can send an email to [prayer@mosaicgc.com](mailto:prayer@mosaicgc.com). We would be honored to pray with you!"*

### **Saying goodbye –**

This is the worst part of the party! It's ok though, you can still talk during the week. The goal before you go is to make an intentional connection with everyone who has joined you. Saying a prayer for them and connecting them to our church's resources are a great way to do this! Say something like:

*"I'm really glad you guys joined me for church today! If you want to join me again next week, I'll be hosting another watch party so we can enjoy church together again! Don't forget to check out [www.mosaicgc.com](http://www.mosaicgc.com). I hope to talk to you soon!"*

### **Make sure you end your watch party!**

When the service is over, make sure you click the button from the drop-down menu that says, "end watch party". This will prevent other videos from automatically playing when the service is over.
